1. Introduction

Welcome to **FleetMate**, the online vehicle rental system of **JR4L Car Rental Service**. This guide is designed to help customers use the website to search for available vehicles, view vehicle information, submit booking requests, and access the AI Assistant for general rental inquiries.

FleetMate allows customers to begin the booking process without creating an account. By entering the desired rental dates and seating requirements or by browsing the available vehicles, customers can quickly find a suitable vehicle and submit a booking request online. After a request is submitted, booking confirmation and contact details are sent through email and text message.

This manual provides step-by-step instructions for each customer feature available in FleetMate to help ensure a smooth and convenient booking experience.

2. Before You Begin

Before using FleetMate, make sure you have a stable internet connection and a device capable of accessing the website, such as a smartphone, tablet, laptop, or desktop computer. The website is designed to work across different screen sizes, allowing you to book a vehicle from almost any device.

To make the booking process faster, prepare your preferred pick-up and return dates, along with the minimum seating capacity you require. When submitting a booking request, ensure that your full name, email address, and mobile phone number are entered correctly so JR4L Car Rental Service can send your booking confirmation and contact you regarding your reservation if necessary.

No account registration or login is required. Simply visit the FleetMate website and begin searching for available vehicles.

3. Website Overview

The FleetMate homepage serves as the main entry point of the system. From this page, customers can search for available vehicles, browse the vehicle collection, and access the AI Assistant for rental-related inquiries.

Figure 3.1 FleetMate Homepage

No.	Component	Description
①	Navigation Bar	Provides access to the Home and Vehicles pages.
②	Search Panel	Enter the desired rental dates and minimum seating capacity.
③	Search Button	Displays vehicles matching the entered search criteria.
④	Ai Assistant	Provides answers to common rental inquiries through the chatbot.

4. Searching for Available Vehicles

This section explains how to search for vehicles based on your preferred rental dates and seating requirements. Using the search feature helps you quickly find vehicles that are available for your selected schedule.

Figure 4.1 Vehicle Search Panel

STEPS

1. Enter your preferred **Pick-up Date**.
2. Enter your preferred **Return Date**.
3. Select the **Minimum Seating Capacity**.
4. Click the **Search Vehicles** button.

FleetMate displays the vehicles that are available during the selected rental period and meet the specified seating requirement.

Figure 4.2 Available Vehicles Panel

5. Browsing Available Vehicles

This section explains how to browse the complete list of vehicles available for rental. Customers can compare different vehicles before making a booking request.

Figure 5.1 Vehicles Page

STEPS

1. Click the **Vehicles** button in the navigation bar. Refer to **Figure 3.1. FleetMate Homepage** for the location of the navigation bar.
2. To search for a specific vehicle, enter the vehicle name or relevant keyword in the **Search** field ①.
3. Use the **Filter** option ② beside the search field to narrow down the displayed vehicles based on available seating capacity or other available filtering options.
4. Browse the vehicles displayed below the search and filter options ③.
5. Select a vehicle to view its detailed information.

The Vehicles page displays the available vehicles based on your search or selected filters. Selecting a vehicle opens its details, allowing you to review the vehicle information before proceeding with a booking request.

6. Submitting a Booking Request

This section explains how to view the detailed information of a selected vehicle. Reviewing these details allows customers to confirm that the vehicle meets their rental requirements before submitting a booking request.

3 **Submit Booking Request**

Figure 6.1 Booking Request Page

STEPS

1. Review the selected vehicle's information under section ①, including the **Vehicle Name, Vehicle Type, Seating Capacity, Daily Rental Rate, and Driver Daily Rate**.
2. Complete the required customer information under section ②. Enter your **Full Name, Pick-up Date, Return Date, Mobile Number, and Email Address**.
3. Review the information you entered to ensure that the details are correct.
4. Click the **Submit Booking Request** button under section ③
5. Wait for the confirmation message indicating that your booking request has been successfully submitted.

Figure 6.2 Successful Booking Request Message

A confirmation message is displayed indicating that your booking request was successfully submitted. A booking confirmation is also sent to the email address and mobile number provided, along with the contact information of JR4L Car Rental Service.

7. Using the AI Assistant

This section explains how customers can use the FleetMate AI Assistant to ask questions and obtain information about the vehicle rental service.

Figure 7.1 FleetMate AI Assistant

STEPS

1. Locate the chat icon at the bottom-left corner of the website. Refer to Figure 3.1. FleetMate Homepage for its location.
2. Click the chat icon to open the AI Assistant.
3. Type your question or inquiry into the chat box.
4. Click the Send button or press Enter to submit your question.
5. Review the response provided by the AI Assistant.

Customers may ask about vehicle availability, rental rates, booking procedures, driver availability, and other general rental inquiries. The AI Assistant provides a response to your inquiry and helps you obtain general rental information without needing to contact JR4L Car Rental Service directly.

8. Troubleshooting

This section provides simple solutions for common issues that customers may encounter while using FleetMate.

Problem	Suggestion
Website does not load	Check your internet connection and refresh the webpage. If the problem continues, try accessing FleetMate again after a few moments.
No vehicles appear after searching	Check that the selected pick-up date, return date, and minimum seating capacity are correct. Adjust your search criteria and try again.
Booking request cannot be submitted	Make sure all required fields in the booking form have been completed correctly, then try submitting the request again.
Booking confirmation is not received	Check the email address and mobile number entered in the booking form. For email confirmations, also check your Spam or Junk folder.
AI Assistant does not respond	Check your internet connection, refresh the webpage, and try the AI Assistant again.

9. Contact Information

This section provides the contact information of JR4L Car Rental Service for customers who need assistance or have questions regarding their booking or rental service.
